

Says

What have we heard them say?
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

Whilst some cover many aspects of Science, others are more 'pure' space and Astronomy centered.

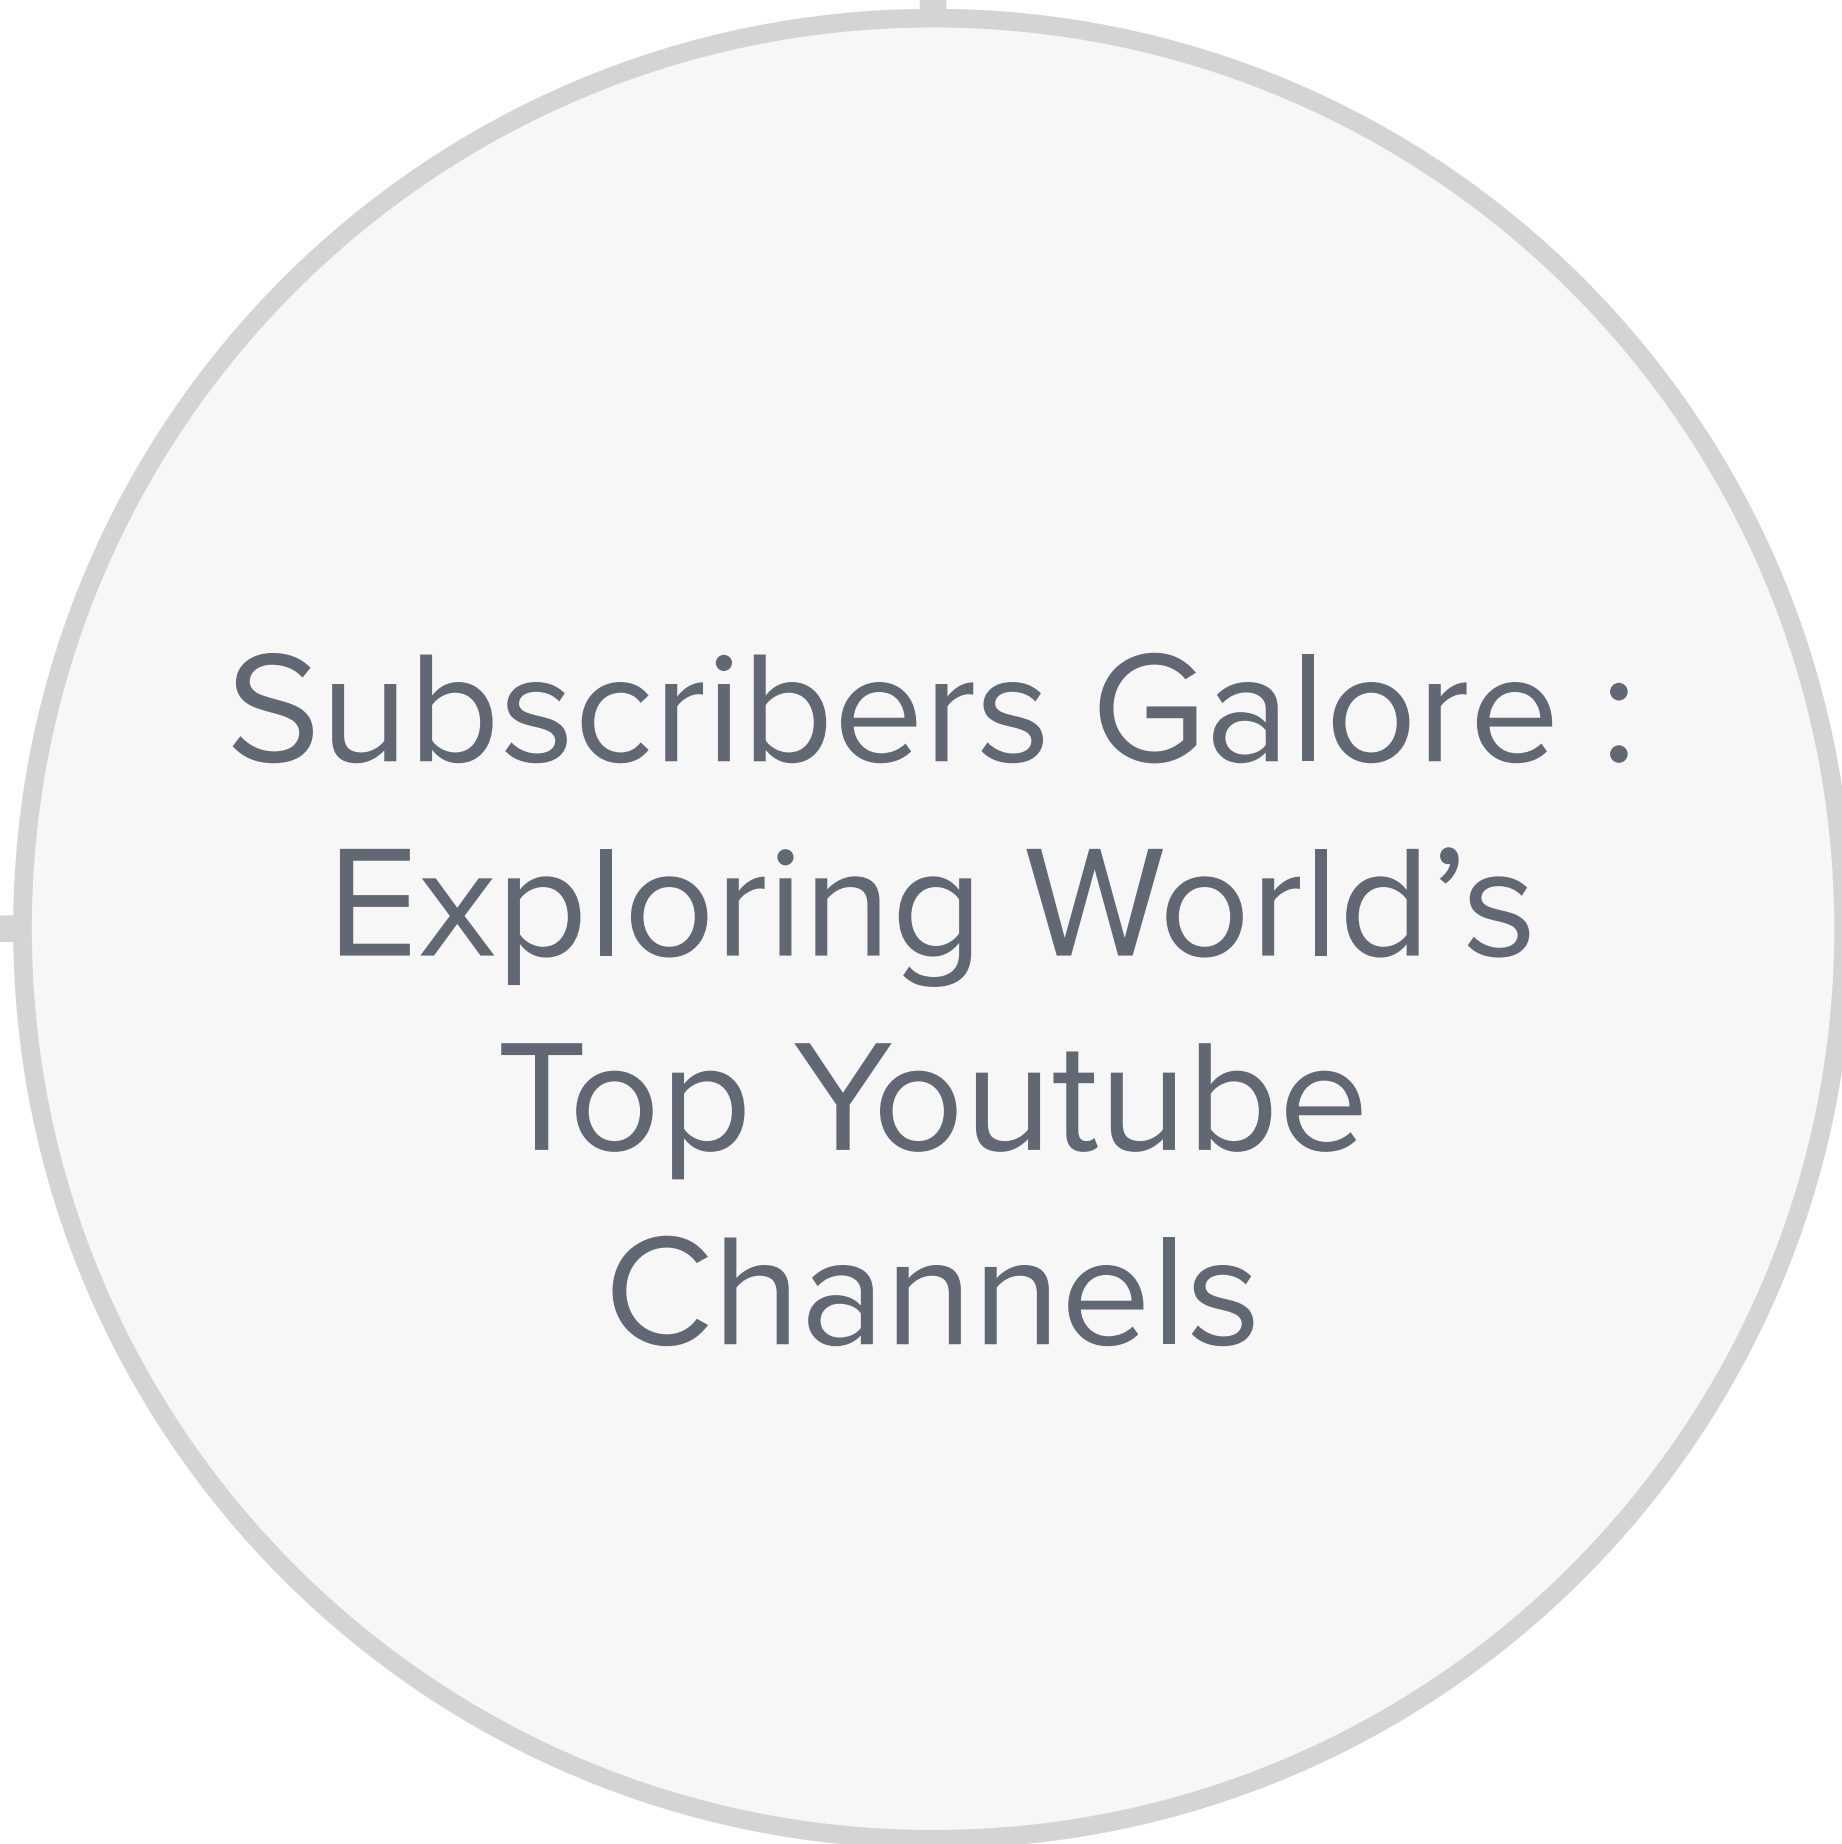

Even also food blogs, motivational blogs,etc many more blogs are learn in the youtube.

I will never see the place real life and I will learn the youtube blogs

In modern world all things learn youtube channel analysis the data and give the notes.

Many people spend time pass in youtube some person earn but never lost the money.

When the youtube also having a ranking system its considered by subscribers and views.

In free times I will spend in youtube blogs and what it earn money and learn new things

When youtube blogs seen more interested and curosimy for random channel.

In my youtube blogs increase the knowlodge, skill, understand the society under the condition.

What you learned from the data told you when your videos perform well, what type of videos your audience prefers, and what videos aren't as popular. If you analyzed specific videos, you even have a list of elements that viewers like the most. Use this data to create videos matched to what your viewers want.

In more enjoyment in the youtube blogs

When more work learn for actual procedure in videos and new ideas.

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?
